

FixKart® — Comprehensive Business Report & Financial Blueprint

India's First Integrated Repair-Commerce Marketplace • Decentralized Spares & Master Technician Network

EXECUTIVE THESIS: FixKart solves the \$28.5 Billion fragmented Indian appliance repair market by combining **guaranteed triple-tier spare parts commerce** with **vetted doorstep master technicians (35-min ETA)**, backed by a **90-Day Digital Repair Passport™**. This report details the 6 revenue streams, unit economics, 3-year P&L; model, and the **\$1.5M Seed Capital** deployment roadmap.

1. Market Opportunity & Problem Statement

Over **68%** of appliances discarded prematurely in Indian urban households fail due to minor, fixable component issues (e.g., drain pumps, inverter capacitors, PCB sensors, relays). Consumers face high friction: uncertain diagnosis, fear of gray-market counterfeit spares, untrusted neighborhood mechanics, and zero warranty accountability. Independent mechanics lose 40% of their productive day traveling to distant wholesale electronics markets to find compatible parts.

2. Monetization Architecture (6 Core Revenue Streams)

FixKart captures value across every node of the repair transaction:

Revenue Stream	Mechanism	Platform Margin / Take Rate
1. Spare Parts Marketplace	Direct sourcing from Tier-1 OEM & certified aftermarket manufacturers.	18% – 35% Margin (OEM: ~20%, Certified: ~28%, Economy: ~35%)
2. Labor & Installation	Commission on technician doorstep labor charges per booking.	15% – 20% Take Rate
3. Doorstep Diagnostic Fee	■199 upfront visit for users who cannot self-diagnose (82% convert to full fix).	■59 Net Retention (■140 paid to technician)
4. FixKart Care+ Subscriptions	Annual Maintenance Contracts (AMC) for household appliances.	■999 – ■2,499 / Year (72% Gross Margin)
5. Dark-Hub Warehousing Fees	Suppliers pay micro-fulfillment storage and pick-pack-dispatch fees.	■40 – ■75 / SKU Dispatched
6. B2B OEM Service Network	Brands (Voltas, IFB, LG) outsource out-of-warranty tickets to FixKart.	■350 – ■600 / Service Ticket SLA Fee

3. Unit Economics Breakdown (Average Transaction)

Example: Washing Machine Drain Pump Replacement (Order Value: ■1,897 + GST):

Component	Gross Amount (■)	Platform Realization	Margin / Retention
OEM Genuine Drain Pump	■1,499	■379 Net Margin	25.3% Gross Margin
Doorstep Installation Fee	■349	■69 Platform Fee	19.8% Take Rate
